

Imagine...

It's a perfect, lazy, summer afternoon. You're lying together in a lovely meadow, surrounded by majestic mountain peaks. A warm, gentle breeze brings the distant chirping of crickets to awaken you from your nap, as the light of the day slips away. As you awaken, your eyes get larger... your mouth opens, and looking up... you're surprised as you discover the most beautiful, starry sky imaginable!

Thousands of stars gently glowing in the night. There's a shooting star! And the Southern Cross! Isn't that the constellation Orion? And there's Pegasus, the flying horse! You see the Big Dipper, the princess Andromeda, the North Star, and more! And the dazzling Milky Way is simply exquisite as it stretches out high overhead.

Your worries of the day just melt away. Stress-relieving for the business professional. Relaxing and inspirational for families. An awesome night light for children. The perfect romantic getaway for adults.

Your licensed STARSCAPES® Artist-Illusionist has created for you, (using a secret process.) in your bedroom, in just one visit, your one of a kind, and very, very special, signed and dated STARSCAPES®. This highly professional masterpiece will be yours to enjoy every night. Included is your *Certificate of Authenticity*.

Your STARSCAPES® is virtually invisible in most cases during the day, so it won't interfere with any decorating scheme. At night, or when the lights are turned off... the results are astonishing! It appears that the ceiling has been removed, and what you see above you is the most incredible, starry sky imaginable. Not just any nighttime sky... but a crystal clear evening, high atop a mountain valley, above the clouds! Thousands of stars are visible! You'll absolutely love your STARSCAPES® and you'll wonder how you ever got to sleep without it.

Discover For Yourself the Serenity of STARSCAPES®

- STARSCAPES® Allows You to Relax and Fall Asleep Faster
- Children Are No Longer Afraid of the Dark
- Your Worries of the Day Just Melt Away

You have to see it in 3-D to believe it!

By looking at the illustration to the right, you can get a general 40% idea of what STARSCAPES® is. We can't really duplicate the STARSCAPES® 3-D effect in print. A genuine STARSCAPES® illusion creates depth, and the spaces between the stars are a deep rich black, just like you'd see in the heavens far away from city lights and city stress.

Thousands have told us about the soothing effect of STARSCAPES®. How great would it be to look up from your bed and gaze at the stars that always seem to put things into perspective, quieting your mind, forgetting the days events and peacefully drifting off to sleep.

The STARSCAPES® effect is breathtaking and really has to be experienced in person to be fully appreciated. *Fortunately, this is easy to do. Just call us.*

Make Your Home More Relaxing with STARSCAPES!

Invisible by day...

Astronomically Correct...

Your STARSCAPES® Artist can commemorate special days in your life, such as birthdays and weddings, by accurately rendering that date with the actual position of the stars on that special day.
